Claim no. A-217497

Dear Sir:

The Board is pleased to inform you that on the basis of your application and the evidence of record, you have been awarded an annuity under Section 2 (a) 1 of the Railroad Retirement Act of 1937. The beginning date of your annuity is July 27, 1945 and the monthly amount to which you are entitled is $72.83.

In the adjudication of your claim 24 and 5 /12 years of service were proved and your average monthly compensation was found to be $ 198.30. As you probably know, the total service which can be counted in calculating an annuity may not exceed thirty years, and compensation in excess of $800 in any one calendar month may not be included.

At the earliest practicable date, and as soon as the necessary arrangements for payment have been completed, you will receive a check for $373.86 covering the amount due you from July 27,1945 which, as shown above is the beginning date of your annuity, to December 31, 1945 . Thereafter, during your lifetime, regular monthly payments of $ 72.83 will be mailed to reach you about the fifth day of each month to cover the amount due for the preceding month.

In the event you return to work the Act provides that no annuity shall be paid for any month in which you render compensated service (1) to an employer as defined in the Act, or (2) to the last person by whom you were employed prior to the date on which your annuity began to accrue, or (3) to any person with whom you held rights to return to service at the time your annuity began to accrue, or (4) to any person with whom you ceased service in order to have your annuity begin to accrue. The Act further provides that any person receiving an annuity shall report to the board immediately all such compensated service. However, service rendered as an employee of a local lodge or division of a national railway labor organization shall not affect your annuity and need not be reported if you earn less than $8.00 a month for such service.

The Board takes pleasure in sending you a certificate evidencing the fact that you have retired from service and are entitled to receive an annuity. If, in the future, any questions arise in connection with your annuity, it is suggested that, instead of writing to the Board at 844 Rush Street, Chicago 11, Illinois, you take the matter up with a field representative of the Board located at any of the addresses shown on the enclosed list of Regional and district managers' offices and furnish him with this letter.

Yours very truly,

John W. Callender

In the event complaint is made regarding the adjudication of any claim, the Division of Retirement Claims will endeavor to explain to the applicant the basis of adjudication. If, nevertheless, the applicant challenges the decision of the Division of Retirement Claims, he will be required to proceed in accordance with the Regulations Governing Appeals within the Railroad Retirement Board, from which the following are excerpts: (The Claims Service referred to in the Regulations quoted below is now known as the Division of Retirement Claims.)

* * * * * * * * * * * * * * * * * * * *

"Every applicant shall have a right to appeal to the Appeals Council from any initial decision of the Claims Service by which he claims to be aggrieved. The Appeals Council shall consist of five members, one of whom shall have legal training and shall be the chairman. Each other member shall have a background of experience in the railroad industry calculated to familiarize him with the practices, procedures, and conduct prevailing in the railroad industry; two of such members shall have a background of experience in the representation of employee organizations, and two shall have had experience calculated to familiarize them with the problems of railway management.

"Appeal from an initial decision of the Claims Service shall be made by the execution and filing of the appeal form prescribed by the Board, and must be filed with the Appeals Council within one year from the date upon which notice of the initial decision is mailed to the applicant at the address furnished by him.

"In determining whether an appeal has been made in accordance with these regulations, the date of filing of a duly executed appeal form prescribed by the Board shall be the date of receipt in the office of the Board in Washington, D. C., or the date of receipt by a Regional Office of the Board, or the date of delivery for the purpose of transmission to the Board's Washington office into the personal custody of a district manager at his office or elsewhere in his district or at his office to a subordinate field agent designated by him, or the date of delivery for the purpose of transmission to the Board's Washington office to any field agent specifically authorized by a Regional Director to receive custody in the district where delivery is made, whichever date is earlier.

"The right to further review of an initial decision of the Claims Service shall be forfeited unless formal appeal is filed in the manner and within the time prescribed herein.

* * * * * * * * * * * * * * * * * * * *

"In the development of appeals, the Appeals Council shall have power to hold hearings, require and compel the attendance of witnesses, administer oaths, take testimony, and make all necessary investigations."

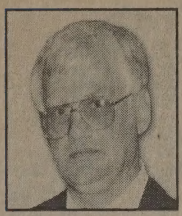
HUNT
Robert I. II "Bob"



Robert "Bob" I. Hunt II, 63, of Point Place, left this world on Friday, April 8, 2011 while at The Toledo Hospital. Bob was born in Toledo, Ohio on August 4, 1947 to Robert I. and Velma (Laytart) Hunt, Sr.

Bob worked for 32 years as an Ambulance and Funeral Home attendant at David R. Jasin Funeral Home and Ambulance Service, Inc. retiring in 1999. He was a beloved employee and a very dear friend until the end. Bob belonged to the F.O.E. AERIE #197 and he enjoyed model trains, but the true "lights of his life" were his grandchildren. Bob's eyes would sparkle with pride and joy whenever they were around him; every care in the world slipped away when surrounded by those children.

Bob has left a great legacy behind to carry his memory on; his loving and devoted wife of 33 years, Patricia (Sass) Hunt; loving daughter, Dawn (Scott) Hiser; sons, Christopher (Alissa), David, and Jeffrey Hunt; grandchildren, Jaimee, Makahlen, Evan, Conner, Brendan, Ryen, Rori, Ana and Morgan; mother, Velma Kubiak; brother, Daniel Hunt; sister, Marsha Haywood; brothers and sisters-in-law, along with many nieces, nephews and friends. Bob was preceded in death by his father.

Family will receive visitors Tuesday, April 12, 2011 from 2-8 p.m. at **David R. Jasin-Hoening Funeral Home, 5300 N. Summit St.,** (419-726-1583). Funeral Services will begin Wednesday, April 13, 2011 at 11 a.m. in the Funeral Home with Pastor Darlene Fugate officiating. Interment will be at Toledo Memorial Park. Those wishing to make a contribution in Bob's memory are asked to consider his family. Words of encouragement, shared memories and photos may be placed at:

HUNT
Charles "Charlie" A.

Charles "Charlie" A. Hunt, age 67, passed away on March 7, 2014, after a decade long battle with cancer. Charlie died peacefully while surrounded by his loving family. Charlie was born in Toledo, Ohio on March 2, 1947, the son of Charles and Janet Hunt. In 1969, at the age of 22, Charlie started his career as a police officer with the Toledo Police Department. He was promoted to the rank of sergeant in 1976, and then to Lieutenant in 1981. Charlie spent the majority of his career in the Detective Bureau where he was instrumental in solving numerous homicides and other violent crimes, many of which were high profile in nature. Those who worked around Charlie throughout the years described him as a good policeman and keen investigator. He was thorough, hard working, well respected, and had an exemplary work ethic. Charlie was the kind of boss who wouldn't ask anyone to do something that he wouldn't do himself. Charlie was a graduate of the FBI National Academy and in 1993, he earned the "Top Cop Award." Charlie retired from the Toledo Police Department in 2001, and continued his public service for 11 years as an investigator for the Lucas County Coroner's Office.

Charlie liked being surrounded by his family and often hosted family gatherings. He enjoyed hunting and fishing and he passed those interests on to his sons. He enjoyed working in the yard, tending to his roses, and watching the wildlife in his backyard. He was very handy and had the skills necessary to fix just about anything. As a result, his advice and expertise were often sought. He was an avid sports fan who enjoyed cheering on the Ohio State Buckeyes and the Cleveland Browns. Charlie could be described as a man of few words but he was always there to listen, give advice, and help in any way he could. He will be missed dearly.

Charlie is survived by his wife, Elaine Hunt; brother, John (Karen) Hunt; sister, Kay (Jim) Buchanan; sons, Charles (Jennifer) Hunt and William (Cheryl) Hunt; daughters, Lori (Tom) O'Brien and Carrie Sautter, and their mother, Linda (Kujawa) Hunt; stepson, Steve (Christie) Kokocinski and stepdaughter, Cathy (Tom) Stienke; as well as 11 grandchildren and 2 great-grandchildren. Charlie is preceded in death by his parents, Charles and Janet Hunt.

A special thanks to the 3-west staff at St. Luke's Hospital for their care and compassion and "Deb" his favorite staff member from the Lakes of Monclova.

Those wishing to give memorials in Charlie's memory are asked to consider the American Cancer Society.

A private funeral service will be held for immediate family. Friends are invited to celebrate his life on Wednesday, March 12, 2014, between 3 p.m. and 6 p.m. at the American Legion, 6910 Providence St. in Whitehouse, Ohio. Online condolences may be offered to Charlie's family at toledocremation.com

of shortage, and that Duluth, Port Huron, Milwaukee, Detroit, Toledo, etc., are always wrong.

This, I find, is no new thing, but old and stale, and has become an ugly sore for the vessels, after we have done a party an honest job and received his money for the same, to have him return and accuse us of cheating him out of so much grain that he was short of on delivering the cargo at Buffalo, and trying to make us believe that the tally men at Buffalo are correct and we are all to blame, that they did not receive any such amount, etc. I for one will stand up and take the bull by the horns, defy Buffalo tally men or the elevator men, or both, or any other man or men in the state of New York, to prove that I have given any boat credit of having on board more grain than was fully and actually weighed up for the same, and I can further furnish ample proof that the same amount did and does go into the said vessels, as the figures always have agreed with the aforesaid tally man, always present at the elevators. They, as stated before, are under bonds. I am not, for I was not asked to be, but I can get bonds for any amount, if required. But my reputation is at stake. You may think that these are pretty strong assertions for one to make, but I can prove all I have said or may say, as you will see further on. This is not the only case, but it will cover all the shortages since the 1st day of September, 1885, and there have been just as many since as before, compared to the amount shipped.

On the 19th day of September, 1885, the steamer Hiawatha, owned by Captain Thos. Wilson, of Cleveland, O., and in command of Captain Edward Morton, took from elevator "E," at Duluth, Minn., 18,188 bushels of No. 1 northern wheat (this being a portion of her cargo); the same was put between the decks by itself. The steamer Hiawatha arrived at Buffalo and delivered the same to the Niagara elevator, and there fell short 126 bushels. On his return to Duluth Captain Morton reported the same to me and said that he did not receive that

ome grain is drawn into the boat. That none of the spouts, leading from any of the scales used during the loading of the propeller Hiawatha, on September 19, 1885, were changed from the shipping bins until all of the grain had been weighed and dropped out of the scales and into the shipping bins. That all scales were entirely cleared after each draft, and the tally man given time and privilege to examine the scales after each draft. That all the grain weighed on the 19th day of September, 1885, for the propeller Hiawatha went into the shipping bins and on to the said barge, and none of it remained in the elevator after the bins were declared empty.

G. D. W. MANDEVILLE, Weighman.
V. D. NICKERSON, Tallyman for steamer Hiawatha.

I certify that the above parties acted in the capacity they represent, and that above statements are true.

GEORGE RUPLY, Superintendent.

Next in turn is the certified statement of the foreman of elevator E, also present:

DULUTH, MINN., October 8, 1885.

I, Paul Sharvey, hereby certify that I am the foreman of elevator E, Duluth, Minn. That on the 19th day of September, 1885, the propeller Hiawatha was partly loaded at said elevator E. That at said time all the grain weighed into the shipping bins was put on to said barge, and when all the grain was out of the bins the bins were left open, and that it is impossible for any grain to remain in the bins after the slide was left open. That none of the grain weighed for said boat was left in the elevator after said shipping bins were declared out.

PAUL SHARVEY, Foreman.

I certify that Paul Sharvey is foreman of elevator E, and above statement is correct.

GEORGE RUPLY, Superintendent.

The two last, you will notice, are acknowledged by George Ruply, Superintendent of the Elevator & Improvement Company. And you will see that they all agree. By this I make my stand, and I purpose to stay. If this is not enough I can give you the

same, and I can further furnish ample proof that the same amount did and does go into the said vessels, as the figures always have agreed with the aforesaid tally man, always present at the elevators. They, as stated before, are under bonds. I am not, for I was not asked to be, but I can get bonds for any amount, if required. But my reputation is at stake. You may think that these are pretty strong assertions for one to make, but I can prove all I have said or may say, as you will see further on. This is not the only case, but it will cover all the shortages since the 1st day of September, 1885, and there have been just as many since as before, compared to the amount shipped.

On the 19th day of September, 1885, the steamer Hiawatha, owned by Captain Thos. Wilson, of Cleveland, O., and in command of Captain Edward Morton, took from elevator "E," at Duluth, Minn., 18,188 bushels of No. 1 northern wheat (this being a portion of her cargo); the same was put between the decks by itself. The steamer Hiawatha arrived at Buffalo and delivered the same to the Niagara elevator, and there fell short 126 bushels. On his return to Duluth Captain Morton reported the same to me and said that he did not receive that

DULUTH, MINN., October 8, 1885.

I, Paul Sharvey, hereby certify that I am the foreman of elevator E, Duluth, Minn. That on the 19th day of September, 1885, the propeller Hiawatha was partly loaded at said elevator E. That at said time all the grain weighed into the shipping bins was put on to said barge, and when all the grain was out of the bins the bins were left open, and that it is impossible for any grain to remain in the bins after the slide was left open. That none of the grain weighed for said boat was left in the elevator after said shipping bins were declared out.

PAUL SHARVEY, Foreman.

I certify that Paul Sharvey is foreman of elevator E, and above statement is correct.

GEORGE RUPLY, Superintendent.

The two last, you will notice, are acknowledged by George Ruply, Superintendent of the Elevator & Improvement Company. And you will see that they all agree. By this I make my stand, and I purpose to stay. If this is not enough I can give you the whole state of Minnesota for backing, for she is interested too, and you all know that she is no spring chicken.

Now then, I ask Buffalo to come forward and meet us. She must bring the figures for each and every draft and the sum total. No talleys, but figures in pounds, and have suitable proof for the same. All we ask is

UNRAVELING THE MYSTERY.

DULUTH, October 15.

To the Editor of the Marine Record,

The following exhibit is made at the request of several vessel owners and vessel agents: On the 15th day of July I landed in Duluth, and from that time on have made it my business to tally the cargoes into the many steamers and sail vessels that call at this port. Soon after my arrival here I formed the acquaintance of Mr. H. S. Patterson, a man who had been tallying grain here for about four years, and found him to be an honest, straightforward man in every respect. We then joined in the business to attend to the tallying of cargoes of grain in the interest of the aforesaid vessels, and made it strictly our business to see that they did get the amount of grain called for on their bills of lading, and up to the present time we have found the elevators, not one, but *all*, in the city of Duluth, to be straight in every respect, giving justice to all; slighting none, or favoring none. And further, I find that the elevators are all under a bond of $50,000 each to the state of Minnesota to faithfully perform their work either in shipping or receiving their grain. Also, that the state of Minnesota has men appointed to tally in the grain from the cars and out for the vessels; also, men to examine the scales, bins, spouts, etc., to test the same and to see that they are kept in good working order; also men to inspect the grain received or shipped from said elevators, and that all of these men are under bonds of $5,000 each to faithfully perform their duty; also, that the Fairbanks Scale Company had sent their amount; that we had made a mistake of 126 bushels or that this amount was held back from the boat and kept in the elevators. I now wish you to publish the original tally card used by myself on this occasion, showing the figures for every draft and the footings of the same which I hereby certify to be correct:

DULUTH, September 19, 1885.

This is to certify that I have weighed on board 789,480 pounds No. 1 northern wheat as per this tally card for steamer Hiawatha.

V. D. NICKERSON.

You will also copy for the public the certificate of the chief weighmaster for the state of Minnesota, W. B. Nichols, his assistant, being the one present at elevator E, on this occasion:

DEPARTMENT STATE GRAIN INSPECTION,
OFFICE OF CHIEF WEIGHMASTER,
DULUTH, MINN., Oct. 8, 1885.

This certifies that propeller Hiawatha received cargo of No. 1 northern wheat, weighed at elevator E by Assistant Weighmaster W. B. Nichols, September 19, and found to contain 13,158 bushels No. 1 northern wheat.

E. MEATTSON,
Chief Weighmaster.

Next comes the chief inspector's certificate,

OFFICE OF CHIEF INSPECTOR OF GRAIN,
DULUTH, September 21, 1885.

This is to certify that there has been inspected into propeller Hiawatha, by Deputy Inspector H. S. Sjoberg, 13,158 bushels No. 1 northern new wheat, between the decks.

R. C. BURDICK, Chief Inspector,
Per John Shely, Chief Deputy.
For account of GEO. S. BARNES & Co.

Next we have the certified statement of the shipping weighman at elevator E, present at the aforesaid time:

DULUTH, MINN., Sept. 8, 1885.

I, Geo. D. W. Mandeville, hereby certify that I am the shipping weighman at elevator E, Duluth, Minn. That on the 19th day of September the propeller Hiawatha was loaded or partly loaded at said elevator. That I balanced all of the scales used in weighing said cargo in the presence of the tally men sent into the elevator by the captain of said barge, and set the spouts for all the scales into the shipping bins, from which bins grain is drawn into the boat. That none of the spouts, leading from any of the scales used during the loading of the propeller Hiawatha, on September 19, 1885, were changed from the shipping bins until all of the grain had been weighed and dropped out of the scales and into the shipping bins. That all scales were entirely cleared after each draft, and the tally man given time and privilege to examine the scales after each draft. That all the grain weighed on the 19th day of September,

---

these men are under bonds of $5,000 each to faithfully perform their duty; also, that the Fairbanks Scale Company had sent their man here to repair and test the scales used in receiving and shipping, and he pronounced them all right. There are present at the elevators, where grain is to be tallied into vessels, three tally men, one for the vessel, one for the state, and one for the elevators, thus making the possibility against mistake more than doubly secure as all can see. Then again we have a footing to every ten drafts set down in pounds, taken from the scales at every draft as seen by my original tally card, taken at elevator "E" on September 19, 1885, and *put on board* of the steamer Hiawatha at the same time. All three aforesaid tally men must agree on every draft, the footing of every ten drafts, and on the final footing before leaving the elevator or report the same to the foreman.

In the face of all this there is a bitter complaint coming back to us too often from shortages when cargo is unloaded at Buffalo, N. Y., and that vessels often run short from 60 to 782 bushels, taking all and sometimes more than they have left to pay for their shortage and running expenses. It would appear to the thinking man that it was very strange that Buffalo was always right and that she can demand her pay for any amount of shortage, and that Duluth, Port Huron, Milwaukee, Detroit, Toledo, etc., are always wrong.

This, I find, is no new thing, but old and stale, and has become an ugly sore for the vessels, after we have done a party an honest job and received his money for the same, to have him return and accuse us of cheating him out of so much grain that he

justice and square dealing. There are many just as good, but we acknowledge no superiors in this weighing and tallying business, but man for man. I for one will not submit to such bulldozing and one-sided business, and I think that I have shown you that Duluth can clear her own skirts. I am not interested in any one of all of the elevators of the state; but I am interested in the vessels and my own reputation. Two wrongs never did or never will make one right.

Vessel owners at Cleveland (their names I can give you if I am obliged to), have stated to me, personally, that their vessels, when unloaded at Buffalo, fall short, and when they are unloaded at Cleveland they come out all right, loading at the same place.

I now ask the vessel men and owners if they are willing to longer submit to this piece of imposition, and pay whatever they are disposed to call shortages? If so, please do not lay any more at our door until you can prove it. Come out at once and fight it, and I ask the tally men at Port Huron, Detroit, Toledo, etc., one and all, if your records are clean, to stand up for the right. Forbearance has ceased to be a virtue. Will you all stand back and be bluffed and bulldozed, or will you speak for yourselves and keep the ball rolling?

And further, show that we are ready to go before any court of justice in the United States now or at any time, and there and then prove that we are not wrong in our weighing and tallying.

This statement about grain shrinking in the hold of a vessel I can not believe, for when once in and the hatches on, it would gather dampness if anything. If it should be that it would shrink enough to make anywhere near the amount of shortage in from four to five days, how much would you have left when the grain is stored in the vessels all winter? Would vessels consent to take it, or the elevators consent to its being taken and run their chances on the amount of grain they would have left in the spring? No, sir! They rather encourage it, and vessel owners are not slow to take it at a fair price. In the name of justice I call on one and all to come out and fight this great man, or those men, at Buffalo who can outweigh or out tally any one, or any number of persons who can be placed against them, and rob you of your rights. I am not weak-minded enough to believe that vessels have any leakage in the bottom to feed the fish along the great lakes.

In Duluth the air is sweet and pure, but when vessel men are nearing Buffalo they tremble for fear of that contagious and loathsome disease called the shorts, and well they may, for very few who enter that port escape it. Many captains are being furnished with disinfectants which they hope will prove a preventive, in the form of a certificate from the state officials. It is high time that that port was quarantined.

I wish to state here that this is not to bring any reproach upon Captain Morton, of the steamer Hiawatha, for he is a warm friend of mine, and my acquaintance with him for the past twelve years has proved him to be a perfect gentleman, and beyond reproach.

V. D. NICKERSON.

Mr. C. B. German, as referee, is taking testimony in the suit of the steam canal boat Venus and consort Leto, which were run into at May's Point by the canal steamer Thomas Carroll, by which valuable goods were damaged. The case involves about $600. The decision finding the Carroll at fault has been rendered, and the present work is merely to assess damages.—*Buffalo Express.*

The **Battle Creek Sanitarium** was a world-renowned health resort in Battle Creek, Michigan, United States.[3] It started in 1866 on health principles advocated by the Seventh-day Adventist Church and from 1876 to 1943 was managed by Dr. John Harvey Kellogg.[4]

The "San", as it was called, flourished under Dr. Kellogg's direction and became one of the "premier wellness destinations" in the United States.[4] After a devastating fire in 1902[5] the Sanitarium was not only rebuilt, but also enlarged. At its zenith, the sprawling health and wellness complex of more than 30 buildings situated on 30 acres accommodated near thirteen hundred guests. It housed a hospital with research facilities and a nursing school, as well as the Sanitarium Food Company, among others. Following the disfellowshipping of Dr. Kellogg in 1907, the physician stated that he and his employees were "independents" who "did not belong to any church"[6] and that the Sanitarium promoted his theory of "biologic living" based on Adventist principles.[7] In 1928, a distinct 14-story addition to the main building, the "Towers", was constructed.[8][9]

The Great Depression forced the institution to constrict and sell assets to serve its debt. In 1942, the signature main building was purchased by the U.S. Army and converted into the Percy Jones Army Hospital. The hospital was disbanded in the 1950s, and the facility was managed by the General Services Administration. In 2003, it was re-dedicated as the Hart-Dole-Inouye Federal Center.

In 1957, the floundering wellness institution was taken over by the Seventh-day Adventist Church, which operated it under a different name until 1993, when it was sold.[9]

His Social Position.—By how many of the general public is the social status of the marine engineer realised? By a very small percentage indeed of the community are his duties really understood, and many of the uninitiated consider (when they do happen to give the matter a thought, which is not very often) that he is simply an unskilled workman, a mere engine-driver, whose most salient characteristic is his greasy and dirty condition; one who has had some experience in looking after machinery and oiling it when required; whose duties are finished as soon as his ship has arrived in port, and whose services are not again required until the ship is ready for sailing! What a difference there is between the reality and this popular idea; for the engineer requires to be an intelligent, well-educated man before he can become a member of this, the most important *profession* of the present scientific age. The modern marine engine is the gradual outcome of numerous observations made by men of experience, and the majority of the improvements connected with marine engineering are due, not to the theorist who stays at home, but to the man who is brought immediately into contact with the practical element of the profession, and who daily watches the engines as they throb along, noting the defects and weak points in their design under the different conditions of weather, etc., and being thereby enabled to judge how they may best be remedied. To this class of men belongs the credit of having worked out the scientist's ideas, putting them into practical shape, and adding

This is just a snip from one of the 1894 (or 91?) books that I found thru the website below. It has enough possibilities to keep us both busy for months!
